## MAFA MICRO/MINI/MIDI - containers for pellet fuel

MAFA Micro/Mini/Midi is a bin in sturdy design for storing pelleted fuel.

Micro/Mini/Midi is suitable for those who handle pelleted fuel loose or in sacks. The bin can also be used as an intermediate container together with larger silos.

Micro/Mini/Midi is manufactured in anti-corrosion, galvanized steel sheets and has a 45 gr. cone.

Micro/Mini/Midi is delivered in kit form and consists of 4 folded sheets, 4 legs, a protection grid and a 100 mm rotary outlet tube.

### Technical data:

Container:	Micro	Mini	Midi
